

“As EHA, we believe that people with disabilities are created in the image of God and contribute to the transformation of communities.”

Our Work On

Disability

Emmanuel Hospital Association (EHA) is committed to empowering persons with disabilities, to improve their quality of life by enhancing their potential - functional, social, educational, spiritual and vocational dimensions; improving the well-being of their families; and by creating communities who are responsive and responsible.

What We Do

Encourage and facilitate the emergence of inclusive communities where persons with disabilities are accepted, have access and participate in the community as other members.

Create a continuum of care and support for Persons with Disabilities and their families.

Develop leadership among Persons with Disabilities, with special focus on women with disabilities.

Twin Track Approach

We follow the twin tracked approach, which uses the World Health Organisation's Community Based Rehabilitation (WHO - CBR) framework as a guiding tool. We support our projects with dedicated staff and training to ensure that differing abilities of all people are celebrated.

Disability specific initiatives

Increase the empowerment and participation of persons with a disability through disability specific action

Disability-inclusive initiatives/projects

Ensure that all development projects include a disability perspective and are fully accessible to all persons with a disability

Our Activities

HEALTH

Medical assessments

Eye screening

Centre and home based therapy - Occupational therapy, Physiotherapy, Speech therapy

Provision of assistive and adaptive aids

EDUCATION

Bridge learning through centre and home visits
