Advocacy Works - Some real stories

Kareen gets a widows Pension
Kareen moved to the city from her village as a young married woman. She, her husband and 4 children lived in a makeshift 'jhuggi' (hut) in an unauthorised colony in the city's outskirts. In 2008 Kareen's 11 month old baby girl died - probably from diarrhoea. A couple of months later Kareen lost her husband. This time it was probably TB. Kareen (pictured right) was now left with 3 children, no income, living in a tiny hut and incredibly vulnerable.

The state government has a widows pension of Rs1,000 a month but Kareen wasn't getting it. Some simple enquiries found that it was the Department of Social Welfare that administers pensions (see page 12 of this manual). The department said Kareen wasn't eligible for a pension because she didn't have a bank account. Kareen had never had a bank account, so some community worker friends went to the local bank to find out about opening one. “No,” the manager informed them, “we need some identity documentation to open an account” (see page 55 of this manual). Kareen had no such documentation, so the next step was the Electoral Commission. The community workers asked the Commission to issue an Electoral Identity Card (I Card) for Kareen. After several days the officials visited her at her hut. They shook their heads and said; “No, sorry, because she lives in a slum hut, we won't give her an I card.” They protested and cited the rule that all Indian residents are eligible for Election Identity Cards whether they live in a palace or a slum hut (see page 51 of this manual). After a little more protesting, they finally agreed.

A week or so later, now with the Election Identity Card, the community workers went back to the bank, which thankfully opened the account. Next they went back to Social Welfare Department, confident they'd succeed. “No!” came the answer. “Even with the Bank account, she still needs some official government document proving she's been resident here for 5 years!” Exasperated, they wrote a letter of appeal to the head of the Social Welfare Department (see guidelines for letters on page 60), which finally agreed to their request. So after 6 months of battling with the bureaucracy, Kareen finally got her pension, back-paid for 5 months, so now she had Rs5,000 in her own bank account! She beamed ! It wasn't much, but the regular amount might be enough for Kareen and her children to survive.

Women get MGNREGA jobs
The women in Jagir village didn't know whether women were eligible to work under the MGREGA scheme or not (see page 11 of this manual). Their husbands had a 'Job Card' under the scheme, but they didn't know if they, as women, were eligible. A local NGO's project staff informed them that indeed they were entitled to work in the scheme. Knowing this, the women went to the Gram Pradhan to ask for work. They eventually got work (and income) in road construction under MGNREGA.

Guddan gets a Gas Connection
Guddan had been trying for two years to get a 'pakka' (legal) gas connection. The staff at the gas office always gave some excuse for not being 'able' to give her the connection. Then Guddan attended an advocacy workshop about this manual during which she learned about her right to a gas connection (page 35 of this manual) and ways to create pressure, especially on using the Right To Information Act, should the application be stalled. Having that teaching in mind Guddan went back to the gas office. Again the officer gave some excuses, but this time Guddan threatened to complain to his superior officer in the state capital, if she didn't get her connection quickly. The officer was shocked. That simple threat of action was enough and Guddan got her gas connection within weeks!
Introduction

1. About this Manual

India has a surprising number of government services available to its residents. Many of those services should, by rights, be available to the poor residents of villages & urban slums. Unfortunately however, many poor residents are not able to get these services due either:

- not knowing about the scheme;
- a lack of identity documents;
- a lack of confidence; or
- the corruption of some officials.

Often when NGO's find these government services not functioning, they attempt to provide those services themselves, opening schools, clinics, vocational training programmes etc. Such service provision has the advantage that it may endear people to the NGO and may even see results quite quickly. However, the NGO can't provide these services forever. Sooner or later, they will need to help residents access government services which will continue in the long-term.

The information in this manual is only a part of a bigger strategy to empower India’s poor residents. Empowerment involves not only giving the poor the knowledge of services available (pages 77-56 of this manual), but also the skills in writing and presenting applications (pages 60-62). Perhaps the most important aspect to empowerment however, is the heart to want to act selflessly for the benefit of the whole community. Appendix 1 on page 57 provides a comprehensive ten step strategy to empowerment of residents with this knowledge, skills and heart. But be warned - it is difficult, and can take years!

For each of the services in this manual (listed in the Table of Contents), we give:-

1. The relevant Central Government Department which delivers this service (with its website).
2. The Entitlement/Right to residents as per that department's policy. We also give the 'Best Reference' website where those entitlements can be clearly seen. Many entitlements can be found here. Many entitlements are also listed in a “Citizens Charter” which many government departments now have on their websites (see here). A summary of services, which is available to ‘priority’ (poor) and non-poor residents, and the scheme/legislation name is in Appendix 2 (page 59).
3. An Application Procedure to apply for that entitlement. Many application procedures & forms can be found here & here. Some hard copies of forms can be found in Section K on page 66. We give hints on writing effective applications and a sample application letter in Appendix 3 (page 60). Appendix 4 (page 61) also gives some useful tips for how to deal with government officers when presenting an application. Many states (Assam, Bihar, Chhattisgarh, Delhi, Goa, Gujarat, Haryana, Himachal Pradesh, J&K, Jharkhand, Karnataka, Kerala, Maharashtra, MP, Odisha, Punjab, Rajasthan, Uttar-Pradesh, Uttarakhand, West Bengal) also have a Right to Public Services Act (here) which requires Government officials to provide certain services within a set time frame. If they fail to do that, they will be liable to be fined. These services often include: Ration Cards; Pensions; Disability Certificates; Admission in school; Birth Certificates; and Caste certificates.
4. Ways to Create Pressure

The application may not initially succeed because the officer might:-

- Be away on leave, or be on 'election duty'; or
- Claim that you've come to the wrong office; or
- Say he has no authority to deal with your application & the officer with authority is away; or
- Claim that he has no 'budget' this year; or
- Claim that he doesn't have sufficient staff available; or
- Ask for some 'chai pani' (bribe). Appendix 5 (page 62) has suggestions for dealing with corruption.
Should the application not succeed, some ways to create pressure include (in order of difficulty):

- Complaining once more to the original officer;
- Complain under your states Right to Public Services Act;
- Using the Central Government’s on-line grievance redressal mechanism here (go to ‘Click here to sign up’ on bottom left of screen). You should get a reply within 60 days (see FAQ #13 here).
- Lodging a Right To Information (RTI) Act application to the department where you applied. Notes on the effective use of the RTI, with an example, are given in Appendix 6 (page 63);
- Contacting lawyers at the Delhi Justice Resource Centre. (Phone 011-4050170 or email delhi@justiceventures.org);
- Conducting a ‘dharna’ (protest); or
- Contacting the media.

5. A success story (when available) showing where this has actually worked in real situations for people to get the services to which they are entitled.

This manual has been initiated by Emmanuel Hospital Association, and further refined by Justice Ventures International. If you're reading this as a hard copy, you can find a soft copy in English at EHA’s website here, at Justice Ventures' website here and the Right to Food Campaign here.

At the EHA site you’ll also find similar Advocacy Manuals for many north Indians states including; Assam, Bihar, Chhattisgarh, Delhi, Harayana, Jharkhand, Maharashtra, MP, Odisha, Rajasthan, Uttarakhand, Uttar Pradesh and West Bengal.

At the EHA site here you’ll also find a simpler (16 page) manual entitled ‘The Ordinary People’s Advocacy Manual’ for the basic Central Government entitlements valid all over India, as well as a specialised ones on Disability and Women.

We'll attempt to update these manuals every two years. We're also hoping to create Hindi versions of many of these manuals.

2. A first Step - Identifying your area's government offices

Initially it will be useful to identify where your village / locality falls in various levels of the central, state and local government structure. As you identify your area's information, fill it into the table below.

- India is divided into 543 Lok Sabha Constituencies. Each constituency has an elected Member of Parliament (MP) responsible to an electorate of about 24 lakh people. Click here, then on your state to find your constituency's name and your MP. Click on his name to find his contact details.

- Each state is divided into Assembly Constituencies (ACs). Each AC has an elected Member of the Legislative Assembly (MLA) (Vidhayak). To identify your MLA click here then on your state to see a map (if there is one). Then click on your district to find the name of your MLA and his/her party.

- Local government is divided into Gram Panchayats. On average a gram panchayat is home to 2,500 people and has 2 villages. Each Gram Panchayat elects a Pradhan.

- For administrative purposes, each state is divided into Divisions. Each under the authority of a Divisional Commissioner (DC).

- Each division is further divided into several Districts (Jilas). Click here, then click on your state for details on your district. Each District is overseen by a District Magistrate DM.

- Each district is further sub divided into several sub-districts (taluk/tehsils). Each sub-district is under the authority of a Sub Divisional Magistrate (SDM). Each sub-district is further subdivided into Development Blocks & Town Areas. To find names of Sub-Districts, Blocks & Town Areas, see here, click on your state, then click on your district, to go to your district's website.

- To identify other officers such as the Chief Medical Officer, Superintendent of Police, the websites are given on the relevant page of this manual. As you find that information, insert it in the table below.

1. Food & Water - Drinking Water

Drinking water is fundamental to human life and health. The Indian government through the scheme below is committed to providing adequate clean drinking water to every Indian.

1. Relevant department

Central Government
- Ministry of Drinking Water & Sanitation (website [here]).

State Government
- Public Health Engineering Dept (PHED) (or similar wording).

Local Authorities
- In city areas, the Nagar Nigam is generally responsible for water supply.

2. Entitlement ([Best Reference: E-book on Rural Sanitation & Drinking Water 2014](here)).

Under National Rural Drinking Water Programme the goal is to:

- Provide 55 litres of drinkable water, per person, per day:
  - Drinking 3 litres,
  - Cooking 5 litres,
  - Bathing 15 litres,
  - Washing utensils 10 litres,

  - Washing clothes 12 litres)
  - (See page 29 of Rural Sanitation & Drinking Water E-book [here]).
- Provide that source at a distance of not more than 1.6 km or 100m elevation, and one hand pump per 250 people (See Wikipedia document [here] under ‘Access’).
- By 2022 ensure that at least 90% people are provided with access to piped water and 80% with a household connection. (See page 27 of Rural Sanitation & Drinking Water E-book [here]).

3. Application Procedure

- If quantity or quality of water source is unsatisfactory, according to the entitlements above, make an application for testing or a new source to the Public Health Engineering Department of your state.

4. Ways to Create Pressure (if application doesn't succeed)

- Complain to the PHED office where you applied once again; then
- Use the Central Government's on-line grievance redressal mechanism (register [here]) (should get a reply within 60 days); then
- RTI to the Ministry of Drinking Water & Sanitation (website [here]) or on-line [here] (should get a reply within 30 days).

5. Success Story

The hand pump in Parva village was not working. The village Health and Sanitation committee wrote an application to Department of Public Health and Engineering. After three days the Hand pump was fixed.
2. Food & Water - Ration Cards

The Targeted Public Distribution System, (or 'ration card' system), aims to provide basic food at a subsidised (lower than market) price for every family. The central government has now enshrined the right to food security in law in the National Food Security Act 2013, which guarantees 5kg of foodgrains at subsidised rates for 75% of rural and 50% of urban households.

1. Relevant Department

Central Government
- National Food Security Act (NFSA) Sct 3(1) (Act is here).

State Government
- Department of Food and Supplies (or similar wording).

2. Entitlement (Best Reference: National Food Security Act 2013 Sct 3(1) here. Also the Right To Food campaign here (click on your state), here (scroll to your state) and here.

i) Poor residents Every person in 'priority households' (whose name figures in priority list produced by every state govt), to receive 5 kg of food grain at a subsidised price. (National Food Security Act Sct 3(1)).

ii) Destitute Residents (such as disabled or widowed) with no means of support can be issued with an Antyodaya Anna Yojana (AAY) Ration Card and entitled to 35kg foodgrains. (See (National Food Security Act Sct 3(1)).

iii) Rates & Monthly Quantities of Rations (National Food Security Act Schedule 1 (here).

- Eligibility is based on Socio Economic Caste Census (SECC) in 2011. Criteria for exclusion and inclusion are here (scroll down to your state).
- Each state government must publish a list of eligible families (NFSA Sct 10) & display that list prominently Sct 11). Check whether your name is on the list here (currently this is not working).
- Households whose name on the list as either priority or Antyodya can apply for a NFSA card. Application form is here (scroll down to your state).
- If you think you are eligible according to the criteria, but are not on the list, you can still apply for a card. Applications should be processed within 30 days.
- Once you have your card, get rations from nearest ration shop.

4. Ways to Create Pressure (if your application doesn't succeed)

- RTI to Ministry of Consumer Affairs, Food & Public Distribution (website here), or on-line here.

5. Success story

B) Income

1. Income – MGNREGA

The Mahatma Gandhi National Rural Employment Guarantee Act is possibly the biggest government employment scheme in the history of the world. Hundreds of millions of people benefit from the scheme. It allows all rural families, BPL or not, to be employed in a government works programme (roads, irrigation etc) 100 days a year. The hope is that this income, as well as the improved infrastructure built under the scheme, will help families stay in rural areas, rather than migrating to the city.

- MGREGA (website here).

State Government:

5. Success Story

The women in Jagir village didn't know whether women were eligible to work under the MGREGA scheme or not (see page 11 of this manual). Their husbands had a 'Job Card' under the scheme, but they didn't know if they, as women, were eligible. A local NGO's project staff informed them that indeed they were entitled to work in the scheme. Knowing this, the women went to the Gram Pradhan to ask for work. They eventually got work (and income) in road construction under MGNREGA.

5. **Success Story**

Kareen moved to the city from her village as a young married woman. She, her husband and 4 children lived in a makeshift 'jhuggi' (hut) in an unauthorised colony in the city's outskirts. In 2008 Kareen's 11 month old baby girl died - probably from diarrhoea. A couple of months later Kareen lost her husband. This time it was probably TB. Kareen (pictured right) was now left with 3 children, no income, living in a tiny hut and incredibly vulnerable.

The state government has a widows pension of Rs1,000 a month but Kareen wasn't getting it. Some simple enquiries found that it was the Department of Social Welfare that administers pensions (see page 12 of this manual). The department said Kareen wasn't eligible for a pension because she didn't have a bank account. Kareen had never had a bank account, so some community worker friends went to the local bank to find out about opening one. “No,” the manager informed them, “we need some identity documentation to open an account” (see page 55 of this manual). Kareen had no such documentation, so the next step was the Electoral Commission. The community workers asked the Commission to issue an Electoral Identity Card (I Card) for Kareen. After several days the officials visited her at her hut. They shook their heads and said; “No, sorry, because she lives in a slum hut, we won't give her an I card.” They protested and cited the rule that all Indian residents are eligible for Election Identity Cards whether they live in a palace or a slum hut (see page 51 of this manual). After a little more protesting, they finally agreed.

A week or so later, now with the Election Identity Card, the community workers went back to the bank, which thankfully opened the account. Next they went back to Social Welfare Department, confident they'd succeed. “No!” came the answer. “Even with the Bank account, she still needs some official government document proving she's been resident here for 5 years!” Exasperated, they wrote a letter of appeal to the head of the Social Welfare Department (see guidelines for letters on page 60), which finally agreed to their request. So after 6 months of battling with the bureaucracy, Kareen finally got her pension, back-paid for 5 months, so now she had Rs5,000 in her own bank account! She beamed ! It wasn't much, but the regular amount might be enough for Kareen and her children to survive.

D) Education

1. Education - Government Schools

The schooling system is one of the main ways that the gap between the rich and the poor continues to grow in India. The poor can generally only access government schools which are often Hindi-medium, overcrowded and under-resourced. The middle class can send their children to English-medium private schools, where the class sizes are smaller and teaching is better. From there, those students often go to college, whereas few government-school educated students do so. The measures below aim to improve the quality of education for the poor.

1. Relevant Department

All parents/guardians must admit their child in a local school (Sct 10).
All schools (government & private) must:
- Not make a child repeat a class, be expelled, or pass board exam until completion of Class 8 (Sct 16).
- Not do any physical punishment or mental harassment (Sct 17).
- Meet minimum infrastructure requirements (all-weather building, separate classrooms for each teacher, playground, library, separate boys'/girls' toilets, drinking water, play/sports equipment (See Sct 19 & Schedule).
- Have all teachers attend school regularly & punctually & complete the curriculum on time (Sct 24).
- Have Teacher-student ratio of 1:40 at primary (Class 1-5) & 1:35 for Class 6-8 (Sct 25 & Schedule, Item 1).
- NB No teachers can do private tuitions (Sct 28).
All private schools must reserve 25% seats in Class 1 for children from ‘disadvantaged groups' (SC, ST, EWS). (Sct 12(1)(b & c).

5. Success story

Kadagdoni is a very interior village in Jharkhand, far from the main road. The Community Based Organisation (CBO) had been trying to get electricity to the village for years, but was faced with persistent demands for a bribe from the notoriously corrupt Electricity Board. After a little training, the CBO learnt more about their rights under the Rajeev Gandhi Gramin Vidyut Yojana (a scheme before Saubhagya) and collectively decided NOT to pay the bribe which was being demanded – but to work together to pressurise the government to get electricity. They applied to their panchayat leader and also did lot of manual work for the clearing up the road to help the materials reach their village. Eventually they got their connection.
2. **Energy – Gas**

5. **Success story**

*Guddan had been trying for two years to get a ‘pakka’ (legal) gas connection. The staff at the gas office always gave some excuse for not being ‘able’ to give her the connection. Then Guddan attended an advocacy workshop during which she learned about her rights to a gas connection and ways to create pressure - especially using the Right To Information Act. Having that teaching in mind, Guddan went back to the gas office. Again the officer gave some excuses, but this time Guddan threatened to complain to his superior officer in the state capital, if she didn't get her connection quickly. That simple threat of action was enough and Guddan got her gas connection within weeks!*
F) Village Facilities

1. Village Facilities – Toilets

4. Village facilities – Land for the landless

Through generations of caste-based discrimination, corruption, deceit & debt, many families have become landless. This consigns them to a life of renting accommodation & manual labour on other people’s land. As with all other schemes, it is only as good as the SECC list itself.

   **DRDAs (District Rural Development Agencies) and the Panchayat** will be involved in selecting the beneficiaries.

   **National Food Security Mission** (click [here](#) and see page 38).

The abused woman, the Protection Officer, or Women's Commission can then:
- Lodge an FIR at the local Police Station (after which police must arrange for medical examination/ certificate & will investigate the abuse); or

3. Human Rights Abuse - Child Marriage

According to UNICEF, 47% of girls are married by 18 years of age, and 18% are married by 15 years of age. Far from the excitement of love and marriage portrayed in Bollywood, life for many girls married before 18 is awful, becoming little more than a household slave and having pressure to bear children when it is still unsafe. Girls 15-19 are twice as likely to die during pregnancy and childbirth, than women in their twenties. In effect, the girl bride’s childhood is cruelly cut short by marriage. The law now prohibits girls to marry before 18 and boys before 21.

4. Human Rights Abuse – Trafficking of children

Many children are given or sold by a family member, believing the child will get work or study. Often these children however, are then denied contact with their families and mistreated. Many end up in bonded labour (see page 49) and even prostitution (see page 48). The life for a trafficked child is horrific, yet it happens to thousands of children in our own country every year. The only way to stop it is for ordinary people, like you and me to act if we see anything suspicious. Any missing child or any suspicious activity that you think could be related to trafficking should be reported to the police or Childline.

Many young women and girls are given or sold to a trafficker by a family member, believing she will get work, study or marriage in the city. Often however, the girls end up in prostitution in Kolkata, Mumbai, Delhi or Gujarat. The life for a young girl, torn from her family, trafficked into prostitution and then raped multiple times a day for years is horrific, yet it happens to thousands of girls in our country every year.

6. Human Rights Abuse – Bonded/Forced Labour

The Bonded Labour Act defines it as an ‘agreement’ to provide ‘forced labour’. An ‘agreement’ is broadly defined and could be an agreement to get a payment, an advance; to fulfil a customary or social obligation; to repay relative’s debt; or simply by birth into a particular community. Labour is deemed ‘forced’ if there is; restricted freedom of; 1) employment; 2) movement; 3) sale goods and services in the marketplace; or 4) payment is below minimum wage.

90% of bonded labourers are from the SC/ST community. Thus often children or family members are given to a powerful landowner to ‘pay off’ a debt, only for the work to never be properly accounted, exorbitant interest charged, and the labourer never becomes free. This is modern day slavery.

Many of the schemes listed above can only be accessed if the applicant has adequate identity proof. The most basic identity proof is the Aadhaar Card, a 12-digit unique number which will eventually be issued for all residents in India. It stores basic demographics & biometric information (photograph, fingerprints & iris) of each individual in a central database. Aadhaar is free of cost. Though it’s not mandatory currently, it's good to have an Aadhaar card, as it allows you to access many other schemes in this manual more easily.

1. A 10 Step Process for Empowering a Community

1. **Build deep relationships with residents in the community**

   The key to any lasting change in a poor community is the residents themselves. Often however, after generations of poverty and being ignored by the powerful, residents are so disempowered so much so that they passively accept their situations. Vitally important to a community being able to identify and solve its own problems then, is for a small group of residents to become empowered by developing their knowledge, skills, courage and self-confidence to become change agents within their own community. The best way to help key residents to develop this knowledge, skills, courage and self-confidence, is by the NGO’s own staff forming strong mutual, caring relationships with several key community members. So, from the very beginning of the process, staff should be looking to form good relationships with key residents. In choosing with whom to make the relationships, deliberately look for key people with the right 'heart' who can potentially take the community forward in their development journey after the NGO's staff leave.

   An added advantage to forming good relationships with residents is that the NGO will tend to get the 'real' story about the community when doing research in Step 2.

2. **Learn about the community - Observe & enquire**

   It's important to start the empowerment process by being learners, rather than experts. One of the best ways to learn about the community is to simply walk around and observe the situation with respect to housing, power, sanitation, water, community relations, marginalised groups etc. Some things about the colony however, can't be observed, such as the history of the colony, what residents appreciate and what they perceive to be their priority problems. For these, more hidden aspects, you need to enquire, especially of those with whom you are developing close and mutual relationships (from Step 1 above.)

3. **Analyse the problems yourself and with your colleagues**

   In order for the NGO's staff themselves to have a sense of the most pressing problems, as a team analyse what was learnt from Step 2. This analysis may reveal which problems affect most residents, which problems may create opposition, and reveal which problems will have the best chance of being resolved successfully. This analysis is not so as to impose those findings on the community, but rather to have thought about these issues before running the community meeting (Step 4), to decide on which problem to tackle first. Part of this analysis can be a 'power analysis' to find which stakeholders have most power to bring a solution to a possible problem & whether those stakeholders are likely to want that solution or not.

4. **Hold a community meeting to prioritise the problems**

   Even though the NGO's team has done its own analysis in Step 3, it's vital for the final decision as to which problem is tackled first, to actually be taken by the residents themselves. This is done in a community meeting attended by representatives of as many groups of residents as possible; women, children, Muslims, Hindus, the disadvantaged, and so on. This is one of the most difficult steps in the entire process, as running a successful community meeting with many different groups and different opinions is very difficult. The facilitator will attempt to hear all parties, quieten the loudest voices and ultimately build consensus among the residents as to which problem to tackle first.

5. **Become an expert in the resources that could solve the problems**

   After the community has decided which problem to tackle first, the NGO team can use this Manual, its wider networks, internet research, RTI (Right To Information) applications, and so forth to gather relevant information on resources available to the community that may be used to solve the problem. These resources may be found in the government (as seen in this Manual), or delivered by other NGOs, or indeed within the community itself. Again, this research is not done so as to impose those resources on the community, but rather to have options to put to residents in the next community meeting when developing a Plan of Action (Step 6).
6. Plan action to solve the problem
Another community meeting is held to make a plan of action to solve the priority problem decided in Step 4. The plan needs to specify who will do what, when it will be done, and who will pay for any expenses. While the NGO's staff may be a part of the action plan, it's vital that the NGO's staff not take too much responsibility. If residents aren't willing to get involved, then it indicates a lack of commitment to the process. The NGO's staff need to wait until there is sufficient commitment before moving on. This planning phase may also be a good point at which to introduce God as a willing helper in the problem-solving process. In the multi-faith context of India, most people will readily agree to call on God within their own tradition to help solve community problems.

7. Take the action agreed
Residents who have agreed to take steps in the Action Plan (from Step 6) then take those steps. Often these steps involve advocating with government officers to implement existing government services which should be available to residents. Usually this will involve using the Application Procedure outlined in this Manual.

8. Reflect on the action taken
If, after carrying out the plan of action, residents have succeeded in solving the problem, then it's important to celebrate the success! If you haven't succeeded, then you need to make a new plan probably using the Ways to Create Pressure Steps outlined in this Manual and using the learnings from step 7.

Then cycle through steps 6-8 until the problem is solved or becomes unsolvable.

9. Do it all again with less involvement from the NGO & more from the residents
After the resolution of the first problem, return to Step 4 and choose the next community problem to tackle. In doing so, the NGO's staff take less responsibility, while encouraging residents to take more responsibility. In this way, gradually the residents, especially the 'good-hearted' people, learn the whole problem-solving process well enough that they can eventually do it without the help of the NGO's staff.

10. Form a CBO
The 'good-hearted' people identified in Step 1, and mentored through the entire problem-solving process, will eventually form an independent CBO (Community Based Organisation), that will carry on facilitating the community's development after the NGO’s staff leave. That group may, after some time, wish to register as a formal Community Welfare Association, to give it more authority in dealing with the government, as well as more accountability.

3. Writing Effective Applications (with example)

In your letter of application be sure to include the following:-

1. **A clear statement of your problem.** For example, There are many young children in your village but there has never been an Anganwadi. A photo of the problem (e.g. many children) will make the letter even better.

2. **The right you have to this scheme** and the relevant law (see 'Best Reference' next to Entitlement on the relevant page). For example, under the National Food Security Act 2013, Sct 5(1)(a) every child from 6 months to 6 years has the right to a cooked meal at the Anganwadi each day.

3. **Your request that is specific and clear.** What do you want by when? For example, you want several Anganwadis begun by 30th June 2019.

4. **Next Steps:** If you don't get this action what you will do. For example, if the Anganwadi has not been begun by 30th June 2019, you'll lodge an RTI.

NB Copy your application to your state government’s office responsible for this scheme, so the local officer is more likely to respond to you.

Thus an example letter might look like this:-

The Manager  
Integrated Child Development Services  
Bankura District

Re: Anganwadi on Demand in Sivarampur village

Dear sir,

I live in Sivarampur village in District Bankura. I respectfully state the following:-

1. Our village has a population of 2,350 of which 272 are children from 6 months – 6 years old. I have attached a list of the children of this age in our village, together with a photo of them.

2. I note from the National Food Security Act 2013, Sct 5(1)(a) that every child from 6 months to 6 years has the right to a cooked meal at an Anganwadi each day.

3. I would therefore like to apply for several Anganwadis for our village. I would like these Anganwadis to begin by 30 June, 2019.

4. If the Anganwadi is not begun by 30 June 2019, I will lodge an application under the RTI Act 2005 to know what has happened with this application.

Kind regards,

Ramesh Kumar

4. Tips on Effectively Lodging Applications

A. Preparation for the meeting
   - Take someone from the community (so they are directly involved).
   - Have the purpose of the visit clearly in mind.
   - Get an appointment if possible (to not waste time).
   - Dress formally (to make a good impression).
   - Take your ID card & visiting card if you have them.
   - Have your diary, paper & pen (to write down any information).
   - Take 2 copies of any letter or document you want to present (to give one and get a ‘received stamp on the other).
   - Take the originals of any copies you may need to give (to show, but not give, the original).
   - Know where the office is.
   - Have enough money for an auto rickshaw (if getting late).
   - Get there on time.
   - Know the rules & policies (including this officer's superior’s name) before you go in.
   - Decide what pressure you're prepared to apply BEFORE you go in, so you know what yo can threaten if he/she is unreasonable.
   - Decide who will speak (so you don’t speak over the top of each other.)

B. During the meeting
   - Introduce yourself and, if appropriate, check this officer’s name and position.
   - Clearly state your purpose for coming (may involve giving the letter - if so get a ‘received’ stamp).
   - Stay calm! If there's an argument or raised voices you will lose!
   - Repeat whatever s/he says to you (whether negative or positive). Often when the officer hears his unreasonable response repeated, he softens it.
   - If you can't get him/her to 'receive' your application, then at least fix any future date in your diary. Remember 'later' means never, so don’t accept ‘I’ll do it later’.
   - Clearly state whatever follow up pressure you intend to make.
   - Thank him/her!

C. Debrief the meeting
   - If you went with someone from the community then debrief the meeting by asking: - “How was that meeting for you?”
   - Reflect on on what went well, and what you could do better next time.

D. Record the meeting
   - Write down:
     - Date & time of meeting.
     - Who you met with.
     - The result of the meeting (attach extra sheet if necessary).
     - Any expenses incurred.
     - Attach the ‘received’ copy of any letter given.
   - Put any follow up on the appropriate date in your diary/phone.

E. Follow up on the meeting
   - Do whatever it was that you said to the officer you would do.
   - If there was a promise for some action by the officer by a certain date, as the date approaches, check with him/her that it will happen.
   - Once a positive result has been achieved, make sure to thank him/her with phone call or visit.
5. Dealing with Corruption

**How does corruption work?**

Many times, a government officer will not accept or process your application, or simply delay working on it until s/he receives a bribe. Usually these requests are unspoken, or will have code words like 'chai pani' or 'kuchh de do' (give something). Sometimes, rather than taking bribes directly from the public, middlemen (dalaals) take 'service fees' from the public, a proportion of which they then pay as a bribe to the official to get the work done. Like everything else in a capitalist economy, there is a supply and demand, so the more desperate the demand for the service, the more the bribe is likely to be. Of course, there will not be any receipt issued for any such payments, making it hard to prove the bribery. If accused, the official will simply deny that he/she ever received anything. Such bribes can amount to huge amounts of money, such that many government officers have to pay huge bribes themselves to be posted in jobs where the potential for bribe collection is large. Many people are desperate enough to get their work done, that they pay such fees and commissions. This is understandable, given the frustration of getting what you need without bribing.

**What are the problems with the system?**

- The more people pay bribes, the more it becomes entrenched in the system.
- Since the poor can't afford the bribes, corruption effectively excludes them from accessing the very services that were designed to benefit them. Hence, many widows aren't getting pensions, and many impoverished families don't have subsidised gas, simply because they can't afford the bribe!
- Some honest, hard-working government officers, are corrupted by this system.
- The bribes slow down systems that could and should work much more efficiently.

**What can we do when faced with a request for a bribe?**

a) **Before the interaction.**
   - Know your rights, applicable fees etc (perhaps using this Manual), so you can't be deceived.
   - Where possible, lodge application on-line or by post, to avoid possible bribe requests.
   - For written applications, use the format in Appendix 3 (page 60), so the officer knows you're serious
   - Go with another person, so that there's a witness to any request for a bribe.

b) **During the interaction, if an officer asks you for 'chai pani' or 'kuchch de do' then:-**
   - Ask him/her to show you where the fee is written down (to highlight its illegality).
   - Say you'll happily pay the fee, if he gives you a receipt (also to highlight its illegality).
   - Repeat his/her request loudly, so that others in the vicinity hear and s/he gets embarrassed.
   - If he/she persists, make a show of noting the details of the interaction in a way that the officer knows you're noting it. Note the day, time, place & exact request. Note the officer's name & designation. If he refuses to give his name, then note down any feature that might identify him, like a name badge, which desk he's sitting at or any physical features.

c) **After the interaction, decide whether this is an important enough issue to take further action on.**

   If so:
   - Type out concisely the details of what happened; date, place, time, officer, exact request etc; then
   - Find the name of the bribe-taking officer's superior, (from others, websites, or this Manual); then
   - Present your written complaint to the superior officer (or to any other complaint body listed in the 'Ways to Create Pressure' section of each service in this Manual); then
   - When making the complaint, get a 'received' stamp. Include a request that he notify you of what action s/he takes. Also include the threat that if you don't hear anything within 2 weeks, you'll lodge an RTI to find out what happened. Then actually do whatever you threatened to do; then
   - If still nothing happens, phone CBI anti-corruption number 9968 081216,7,8; then
   - Use the Central Government's on-line grievance redressal mechanism (register here); then
   - If still nothing happens, contact an NGO working in this field; then
   - Go to the media.
6. Notes on effective use of the RTI (with example)

1. When is the RTI useful?
When you have an individual problem (eg Pension application not processed) or a community problem (eg Anganwadi not functioning); and
- You've applied for some government service to solve the problem (using the 'Application Procedure' in this Manual); and
- A reasonable period has expired; and
- Other Ways to Create Pressure suggestions (in this manual) haven't worked.

2. How to write an RTI
a) Necessary information
- The name of the department you applied to, the relevant Public Information Officer, and his address
- Date;
- Mention of “The Right to Information Act 2005”;
- The information requested (see below, and example following);
- Fee Rs10 (remember to get the receipt) (for BPL Card holders, no fee, attach a copy of BPL card);
- Your signature (of the applicant);
- Your name; address; and telephone number.

b) In the body of your RTI, include these 5 points (see example below)
i. State the date of your original application and attach a copy;
ii. Ask the time that it should take to process an application according to the Citizens Charter or rules;
iii. Ask what action has been taken, by which officers (with names), on which dates, since you applied;
iv. Ask what punishment has been or will be given to the officers responsible for the delay; and
v. Ask when your application will be processed.

3. To Whom to lodge your RTI
The RTI should be sent to the Public Information Officer (PIO) of the concerned Government department. The relevant page in this manual gives links for relevant PIO. If it turns out NOT to be the correct government department, it's the PIO's responsibility to send the RTI to the correct place within 5 days (Sct 6(3) of the RTI Act 2005 here).

4. How to lodge your the RTI?
* On-Line: For Central Government Dept/Ministries, you can file/pay on-line at https://rtionline.gov.in/; or
* By Speed/Registered Post: (so you have a record). For RTI fee, use Postal Order with Payee line blank; or
* In person at the department;

For all methods, the reply should still come within 30 days from the original RTI lodgement (Sct 7(1)).

5. Possible Results and actions
There are 5 possible results & corresponding actions to your RTI as seen in the table:-

<table>
<thead>
<tr>
