Advocacy Works – Some real stories

Raju gets a Disability Pension

Raju, 35, lives in a shack by the side of a railway track. A father of 5 children, he struggles to make ends meet working as a recycler. Despite having a substantial physical disability – his left leg is largely paralysed in a bent position – he manages to cycle several kilometres to his work. When our community worker met Raju, he asked him to apply for the disability pension for him (page 27 of this manual). He was the first person our community worker had applied for, so it took some time to learn the system – taking photos of his documents, uploading them through the online portal, and submitting hard copies in the District Disability Welfare Office. After several months' waiting, Raju received his first instalment in November 2020! The Rs 500 (USD \$7) per month is not much, but it's something to help tide the family over. Since Raju's success, numerous other people have come forward asking to apply for various types of pensions (disability, widow and old age).

Ruby gets a Gas Connection

Ruby, 24, is a single mum parenting a 3 year-old-daughter in a shack by the side of the railway. She cooked on a wood stove indoors; which was unpleasant and time consuming for her, and also contributed to respiratory issues for her daughter and elderly father. She was very keen to apply for gas (page 41 of this manual), but did not have a PAN card or bank account (prerequisites for a government gas connection) or sufficient money. We helped her apply for both a PAN card (page 68 of this manual) and a bank account (page 69 of this manual), and then submitted photocopies of her documents to the local gas distributor, as well as giving a small gift to help her pay the upfront cost. She's now saving time, money, her lungs – and the planet – by cooking on a cleaner, cheaper and more convenient fuel.

Meeta gets an Aadhaar card

Meeta, 35, is a mother of 5 kids struggling to make ends meet while her husband is a bonded labourer in Saudi Arabia and her oldest daughter struggles with a life-threatening case of abdominal tuberculosis. To make matters worse, several units were struck off her ration card because some of her children did not have Aadhaar cards, and others had Aadhaar cards with a different address. When she had gone to a local cybercafe, they tried to charge her Rs 500 per Aadhaar card; well beyond her means. We filled the Aadhaar enrolment form (page 67 of this manual), she got it signed by the local municipal councillor, and we took an online appointment for the Aadhaar office. Her job was done with minimal difficulty and expense, and she has since been able to fix her ration card to receive the full quota of rations her family deserves and needs.

Savita's life is saved from TB

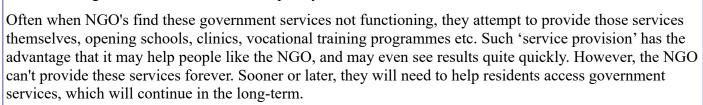

Savita, 28, suffered terribly from headaches and nausea for several months. She was diagnosed with TB meningitis just prior to the start of the Covid lockdown in March 2020. Her husband, a mochi, did not know that free TB treatment was available from government DOTS centres (page 26 of this manual) and so spent tens of thousands of rupees on private doctors, some of whom prescribed painkillers and cough syrups without the antitubercular drugs she needed. Despite some difficulty due to the lockdown, we helped Savita enrol in the nearby DOTS centre and start receiving free treatment. While on correct medication, her condition continued to deteriorate as she became bedridden and her weight dropped to 21 kg. She was hospitalised for 3 months in a government TB hospital, receiving free treatment and food. Gradually she started recovering, is now mobile again, has regained weight to 38 kg, and is no longer suffering from headaches or nausea.

Introduction

1. About this Manual

Bihar has a surprising number of government services available to its residents. Many of those services should, by rights, be available to the poor residents of villages & urban slums. Unfortunately however, many poor residents are not able to get these services because:

- residents don't know about the schemes;
- residents lack the necessary identity documents;
- residents lack the confidence to apply; or
- some government officials behave poorly.

The information in this manual is only a part of a bigger strategy to empower India's poor residents. Empowerment involves not only giving the poor the **knowledge** of services available (pages 7-76 of this manual), but also the **skills** in writing and presenting applications (pages 80-82). Perhaps the most important aspect to empowerment however, is the **heart** to *want* to act selflessly for the benefit of the whole community. Appendix 1 on page 77 provides a comprehensive ten step strategy to **empowerment** of residents with this knowledge, skills and heart. But be warned – it is difficult, and can take years!

For each of the services in this manual (listed in the Table of Contents), we give:-

a) The relevant Bihar and Central Government Department which delivers this service (with its website).

• Bihar government departments can be seen <u>here</u>.

b) The Entitlement/Right to residents as per that department's policy.

- We give the 'Best Reference' website, where those entitlements can be clearly seen.
- The strongest rights are those in law. If you know the name of the law, many laws are available at the government site here or NGO site here
- Many entitlements are also listed in a "Citizens Charter" which many government departments now have on their websites (see here). Many schemes can be found on the government website here and NGO here.
- A summary of services, which is available to 'priority' (poor) and non-poor residents, and the scheme/legislation name is in Appendix 2 (page 79).
- Bihar also has a Right to Public Services Act 2011 here which requires Bihar government officials to provide some services within 21 to 60 days. If they fail to do so, they will be liable for a fine. For services covered see here under RTPS Services (left side). They include: caste, income & EWS certificates (under General Admin Dept), Birth and Death certificates (under Planning & Development Dept), new ration cards (under Food and Consumer Protection Dept).

c) An Application Procedures to apply for that entitlement.

- Where possible apply on-line to avoid the possibility of bribes. You can also apply at your local Jan Seva Kendra <u>here</u> or Common Service Centre <u>here</u> (Urban CSCs are listed <u>here</u> - see 'On-line Citizen Service Centres' on left and search for your city).
- If that's not possible, apply on a paper form, many of which can be found <u>here</u> & <u>here</u>. Some hard copies of forms can be found in Section K on page 86.
- We also give hints on writing effective applications and a sample application letter in Appendix 3 (page 80).
- Appendix 4 (page 81) also gives some useful tips for how to deal with government officers when presenting an application.

d) Advocacy methods

The application may not *initially* succeed because the officer might:-

- Be away on leave, or be on 'election duty'; or
- Claim that you've come to the wrong office; or
- Say he has no authority to deal with your application; or
- Claim the officer with authority is away; or
- Claim that there is no 'budget' this year; or that there are not sufficient staff available; or
- Ask for a bribe. Appendix 5 (page 82) has suggestions for dealing with corruption.

Should the application not succeed, some advocacy methods include (in order of difficulty):-

- If possible, check the status of your application on-line (<u>here</u>); then
- Complaining once more to the original officer; then
- Filing a complaint through the Bihar Public Grievance Redressal System here; then
- Complain under Bihar's Right to Public Services Act, for rights covered by that Act; then
- For Central government schemes, using the Central Government's on-line grievance redressal mechanism here (go to 'Click here to sign up' on bottom of screen). You should get a reply within 60 days (see FAQ #13 here); then
- Contacting lawyers at the Delhi Justice Resource Centre. (Phone 011-4050170 or email delhi@justiceventures.org); then
- Lodging a **Right To Information (RTI)** Act application to the department where you applied.
 - For central government bodies, this can be done on-line here.
 - For Bihar government bodies, can apply on-line <u>here</u>.
 - Notes on the effective use of the RTI, with an example, are given in Appendix 6 (page 83); then
- Contacting the media.

e) A success story (when available)

• Showing where this has actually worked in real situations for people to get the services to which they are entitled.

The Mahatma Gandhi National Rural Employment Guarantee Act is possibly the biggest government employment scheme in the history of the world. Hundreds of millions of people benefit from the scheme. It allows all rural families, BPL or not, to be employed in government public works programmes (roads, irrigation etc) 100 days a year. The hope is that this income, as well as the improved infrastructure built under the scheme, will help families stay in rural areas, rather than migrating to the city.

5. Success Story

Kiran moved to the city from her village as a young married woman. She, her husband and 4 children lived in a makeshift 'jhuggi' (hut) in an unauthorised colony in the city's outskirts. In 2008 Kiran's 11 month old baby girl died – probably from diarrhoea. A couple of months later Kiran lost her husband. This time it was probably TB. Kiran was now left with 3 children, no income, living in a tiny hut and incredibly vulnerable.

The state government has a widows pension of Rs1,000 a month but Kiran wasn't getting it. Some simple enquiries found that it was the Department of Social Welfare that administers pensions (see page 12 of this manual). The department said Kiran wasn't eligible for a pension because she didn't have a bank account. Kiran had never had a bank account, so some community worker friends went to the local bank to find out about opening one. "No," the manager informed them, "we need some identity documentation to open an account" (see page 69 of this manual). Kiran had no such documentation, so the next step was the Electoral Commission. The community workers asked the Commission to issue an Electoral Identity Card (I Card) for Kiran. After several days the officials visited her at her hut. They shook their heads and said; "No, sorry, because she lives in a slum hut, we won't give her an I card." The community workers protested and cited the rule that all Indian residents are eligible for Election Identity Cards whether they live in a palace or a slum hut (see page 71 of this manual). After a little more protesting, they finally agreed.

A week or so later, now with the Election Identity Card, the community workers went back to the bank, which thankfully opened the account. Next they went back to Social Welfare Department, confident they'd succeed. "No!" came the answer. "Even with the Bank account, she still needs some official government document proving she's been resident here for 5 years!" Exasperated, they wrote a letter of appeal to the head of the Social Welfare Department (see guidelines for letters on page 80), which finally agreed to their request. So after 6 months of battling with the bureaucracy, Kiran finally got her pension, back-paid for 5 months, so now she had Rs5,000 in her own bank account! She beamed! It wasn't much, but the regular amount might be enough for Kiran and her children to survive.

5. Success Story

Savita, 28, suffered terribly from headaches and nausea for several months. She was diagnosed with TB meningitis just prior to the start of the Covid lockdown in March 2020. Her husband, a mochi, did not know that free TB treatment was available from government DOTS centres and so spent tens of thousands of rupees on private doctors, some of whom prescribed painkillers and cough syrups without the antitubercular drugs she needed. Despite some difficulty due to the lockdown, local community workers helped Savita enrol in the nearby DOTS centre and start receiving free treatment. Initially, while on correct medication, her condition continued to deteriorate as she became bedridden and her weight dropped to 21 kg. She was hospitalised for 3 months in a government TB hospital, receiving free treatment and food. Gradually she started recovering, is now mobile again, has regained weight to 38 kg, and is no longer suffering from headaches or nausea.

5. Success story Raju, 35, lives in a shack by the side of a railway track. A father of 5 children, he struggles to make ends meet working as a recycler. Despite having a substantial physical disability – his left leg is largely paralysed in a bent position – he manages to cycle several kilometres to his work. When our community worker met Raju, he asked him to apply for the disability pension for him. He was the first person our community worker had applied for, so it took some time to learn the system – taking photos of his documents, uploading them through the online portal, and submitting hard copies in the District Disability Welfare Office. After several months' waiting, Raju received his first instalment in November 2020! The Rs 500 (USD \$7) per month is not much, but it's something to help tide the family over. Since Raju's success, numerous other people have come forward asking to apply for various types of pensions (disability, widow and old age).

The measures below aim to improve the quality of government education for the poor.

5. Success story

Kadagdoni is a very interior village in Jharkhand, far from the main road. A Community Based Organisation (CBO) had been trying to get electricity to the village for years, but was faced with persistent demands for a bribe from the notoriously corrupt Electricity Board. After a little training, the CBO learnt more about their rights under the Rajeev Gandhi Grameen Vidhyut Yojana (a scheme before Saubhagya) and collectively decided NOT to pay the bribe which was being demanded – but to work together to pressurise the government to get electricity. They applied to their panchayat leader and also did manual work for clearing up the road to help the materials reach their village. Eventually they got their connection.

2. Energy - Gas

5. Success story

Ruby, 24, is a single mum parenting a 3 year-old-daughter in a shack by the side of the railway. She cooked on a wood stove indoors; which was unpleasant and time consuming for her, and also contributed to respiratory issues for her daughter and elderly father. She was very keen to apply for gas, but did not have a PAN card or bank account (prerequisites for a government gas connection) or sufficient money. Community workers helped her apply for both a PAN card (page 68 of this manual) and a bank account (page 69 of this manual), and then submitted photocopies of her documents to the local gas distributor, as well as giving her a small gift to help her pay the upfront cost. She's now saving time, money, her lungs — and the planet — by cooking on a cleaner, cheaper and more convenient fuel.

2. Human Rights Abuse - Child Marriage

According to UNICEF, 47% of girls are married by 18 years of age, and 18% are married by 15 years of age. Far from the excitement of love and marriage portrayed in Bollywood, life for many girls married before 18 is awful, becoming little more than a household slave and having pressure to bear children when it is still unsafe. Girls 15-19 are twice as likely to die during pregnancy and childbirth, than women in their twenties. In effect, the girl bride's childhood is cruelly cut short by marriage. The law now prohibits girls to marry before 18 and boys before 21.

4. Human Rights Abuse – Trafficking of children

Many children are given or sold by a family member, believing the child will get work or study opportunities. Often these children however, are then denied contact with their families and mistreated. Many end up in bonded labour (see page 63) and even prostitution (see page 65). The life for a trafficked child is horrific, yet it happens to

thousands of children in our own country every year. The only way to stop it is for ordinary people, like you and me to act if we see anything suspicious. Any missing child or any suspicious activity that you think could be related to trafficking should be reported to Childline or the police.

5. Human Rights Abuse – Bonded/Forced Labour

90% of bonded labourers are from the SC/ST community. Thus, often children or family members are given to a powerful landowner to 'pay off' a debt, only for the work to never be properly accounted, exorbitant interest charged, and the labourer never becomes free. This is modern day slavery.

6. Human Rights Abuse - Sex Trafficking

Many young women and girls are given or sold to a trafficker by a family member, believing she will get work, study or marriage in the city. Often however, the girls end up in prostitution in Kolkata, Mumbai, Delhi or Gujarat. The life for a young girl, torn from her family, trafficked into prostitution and then raped multiple times a day for years is horrific, yet it happens to thousands of girls in our country every year.

Meeta, 35, is a mother of 5 kids struggling to make ends meet while her husband is a bonded labourer in Saudi Arabia and her oldest daughter struggles with a life-threatening case of abdominal tuberculosis. To make matters worse, several units were struck off her ration card because some of her children did not have Aadhaar cards, and others had Aadhaar cards with a different address. When she had gone to a local cyber-cafe, they tried to charge her Rs 500 per Aadhaar card; well beyond her means. Local community workers filled the Aadhaar enrolment form, she got it signed by the local municipal councillor, and the community workers got an online appointment for the Aadhaar office. Her job was done with minimal difficulty and expense, and she has since been able to fix her ration card to receive the full quota of rations her family deserves and needs.

1. A 10 Step Process for Empowering a Community

1. Build deep relationships with residents in the community

The key to any lasting change in a poor community is the residents themselves. Often however, after generations of poverty and being ignored by the powerful, residents are so disempowered that they passively accept their situations. Vitally important to a community being able to identify and solve its own problems then, is for a small group of residents to become empowered by developing their knowledge, skills, courage and self-confidence to become change agents within their own community. The best way to help key residents to develop this knowledge, skills, courage and self-confidence, is by the NGO's own staff forming strong mutual, caring relationships with community members. In choosing with whom to make the relationships, deliberately look for key people with the right 'heart' (honest, courageous and caring) who can potentially take the community forward in their development journey after the NGO's staff leave. An added advantage to forming good relationships with residents at this stage is that the NGO will tend to get the 'real' story about the community when doing research in Step 2.

2. Learn about the community - Observe & enquire

It's important to start the empowerment process by being learners, rather than experts. One of the best ways to learn about the community is to simply walk around and observe the situation with respect to: housing, power, sanitation, water, community relations, marginalised groups etc. Some things about the colony however, can't be observed, such as the history of the colony, what residents appreciate, and what they perceive to be their priority problems. For these, more hidden aspects, you need to enquire, especially of those with whom you are developing close and mutual relationships (from Step 1 above.)

3. Analyse the problems yourself, and with your colleagues

In order for the NGO's staff themselves to have a sense of the most pressing problems, as a team analyse what was learnt from Step 2. This analysis may reveal: which problems affect most residents, which problems may create opposition, and which problems will have the best chance of being resolved. This analysis is not so as to impose those findings on the community, but rather to have thought about these issues before running the community meeting (Step 4). Part of this analysis can be a 'power analysis' to find which stakeholders have most power to bring a solution to a particular problem, and whether those people are likely to want that solution or not.

4. Hold a community meeting to prioritise the problems

Even though the NGO's team has done its own analysis in Step 3, it's vital for the final decision as to which problem is tackled first, to be taken by the residents themselves. This is done in a community meeting, attended by representatives of as many groups of residents as possible; women, children, Muslims, Hindus, the disadvantaged, and so on. This is one of the most difficult steps in the entire process, as running a successful community meeting with many different groups, and different opinions, is very difficult. The facilitator will attempt to hear all parties, quieten the loudest voices, and ultimately build consensus among the residents as to which problem to tackle first.

5. Become an expert in the resources that could solve the problems

After the community has decided which problem to tackle first, the NGO team can use this Manual, its wider networks, internet research, RTI (Right To Information) applications, and so forth, to gather relevant information on resources available to the community that may be used to solve the problem. These resources may be found in the government (as seen in this Manual), or delivered by other NGOs, or indeed within the community itself. Again, this research is not done so as to impose those resources on the community, but rather to have options to put to residents in the next community meeting, when developing a Plan of Action (Step 6).

6. Plan action to solve the problem

Another community meeting is held to make a Plan of Action to solve the priority problem decided in Step 4. The plan needs to specify who will do what, when it will be done, and who will pay for any expenses. While the NGO's staff may be a part of the action plan, it's vital that the NGO's staff not take *too* much responsibility. If residents aren't willing to get involved, then it indicates a lack of commitment to the process. The NGO's staff need to wait until there is sufficient commitment before moving on. This planning phase may also be a good point at which to introduce God as a willing helper in the problem-solving process. In the multi-faith context of India, most people will readily agree to call on God within their own tradition to help solve community problems.

7. Take the action agreed

Residents who have agreed to take steps in the Action Plan (from Step 6) then take those steps. Often these steps involve advocating with government officers to implement existing government services which should be available to residents. Usually this will involve using the Application Procedures outlined in this Manual.

8. Reflect on the action taken

If, after carrying out the plan of action, residents have succeeded in solving the problem, then it's important to celebrate the success! If you haven't succeeded, then the residents to make a new plan, probably using the Advocacy methods outlined in this Manual, and using the learnings from Step 7.

Then cycle through Steps 6-8 until the problem is solved or becomes unsolvable.

9. <u>Do it all again with less involvement from the NGO and more from</u> the residents

After the resolution of the first problem, return to Step 4 and choose the next community problem to tackle. In doing so, the NGO's staff take less responsibility, while encouraging residents to take more. In this way, gradually the residents, especially the 'good-hearted' people, learn the whole problem-solving process well enough that they can eventually do it without the help of the NGO's staff.

10. Form a CBO

The 'good-hearted' people identified in Step 1, and mentored through the entire problem-solving process, will eventually form an independent CBO (Community Based Organisation), that will carry on facilitating the community's development after the NGO's staff leave. That group may, after some time, wish to register as a formal Community Welfare Association, to give it more authority in dealing with the government, as well as more accountability.

3. Writing Effective Applications (with example)

Apply on-line if available: (Drivers licence (page 19), Micro enterprise (page 22), Disability Card (page 29), Private school quota (page 36), NIOS (page 40), Housing (page 49), Aadhaar (page 69), PAN (page 71) and Voter card (page 74) to avoid the chance of bribes. Otherwise try your local Common Service Centre (here) or Jan Seva Kendra (here) for Ration Cards, Drivers Licence Aadhaar Cards, PAN, Voter Card, or Labour cards.

If you need to write your own application be sure to include the following:-

- 1. A clear statement of your problem. For example, there are many young children in your village, but there has never been an Anganwadi. A photo of the problem (e.g. many children) will make the letter even better.
- 2. The right you have to this scheme and the relevant law (see 'Best Reference' next to Entitlement on the relevant page). For example, under the National Food Security Act 2013, Sec. 5(1)(a) every child from 6 months to 6 years has the right to a cooked meal at the Anganwadi each day.
- 3. **Your request that is specific and clear**. What do you want by when? For example, you want several Anganwadis begun by 30th Sept 2021.
- 4. **Next Steps:** If you don't get this action, what you will do. For example, if the Anganwadi has not been begun by 30th Sept 2021, you'll lodge an RTI.

NB Copy your application to Bihar government's office responsible for this scheme, so the local officer is more likely to respond to you.

Thus an example letter might look like this:-

The Manager Integrated Child Development Services Bhojpur District Bihar

Re: Anganwadi on Demand in Sivarampur village

Dear sir,

I live in Sivarampur village in District Bankura. I respectfully state the following:-

- 1. Our village has a population of 2350, of which 272 are children from 6 months 6 years old. I have attached a list of the children of this age in our village, together with a photo of them.
- 2. I note from the National Food Security Act 2013, Sec. 5(1)(a) that every child from 6 months to 6 years has the right to a cooked meal at an Anganwadi each day.
- 3. I would therefore like to apply for several Anganwadis for our village. I would like these Anganwadis to begin by 30 Sept, 2021.
- 4. If the Anganwadis are not begun by 30 Sept 2021, I will lodge an application under the RTI Act 2005 to know what has happened with this application.

Kind regards,

Ramesh Kumar

4. Tips on Effectively Lodging Applications

After writing the application, you can post it to the correct government department. If you do that, send it Registered Post so you have proof of it having been sent. However, sometimes it's better to present the application in person. If you do that, here's some tips on how to do it well:

1. <u>Preparation for the meeting</u>

- Take a key resident from the community (so they are directly involved and learn the process).
- Have the purpose of the visit clearly in mind.
- Get an appointment if possible (so as to not waste time).
- Dress formally (to make a good impression).
- Take your ID card & visiting card if you have them.
- Have your diary, paper & pen (to write down any information).
- Take 2 copies of any letter or document you want to present (to give one, and get a 'received stamp on the other).
- Take the original and copies of any document you may need (to show but not give, the original).
- Know where the office is (so you can get there on time).
- Have enough money for an auto rickshaw (if getting late).
- Get there on time.
- Know the rules & policies (including this officer's superior's name) before you go in.
- Decide what pressure you're prepared to apply *before* you go in, so you know what you can threaten if he/she is unreasonable.
- Decide who will speak (so you don't speak at the same time.)

2. During the meeting

- Introduce yourself and, if appropriate, check this officer's name and position.
- Clearly state your purpose for coming and assure the officer you won't take much time.
- Stay calm! If there's an argument or raised voices, you will lose!
- Repeat whatever s/he says to you (whether negative or positive). Often when the officer hears his unreasonable response repeated, he softens it.
- Present whatever letter or application you want to and get a 'received' stamp as proof.
- If you can't get him/her to 'receive' your application, then at least fix any future date in your diary. Don't accept "I'll do it later", because generally 'later' means 'never'.
- If the officer doesn't do what's reasonable, clearly state whatever follow up pressure you intend.
- Thank him/her!

3. <u>Debrief the meeting</u>

- Debrief the meeting with the person you went with by asking: "How was that meeting for you?"
- Reflect on on what went well, and what you could do better next time.

4. Record the meeting

Write down: -

- Date & time of meeting and who you met with.
- The result of the meeting (attach extra sheets if necessary).
- Attach the 'received' copy of any letter given.
- Put any follow up on the appropriate date in your diary/phone.

5. Follow up on the meeting

- Do whatever it was that you said to the officer you would do.
- If there was a promise for some action by the officer by a certain date, then as the date approaches, check with him/her that it will happen.
- Once a positive result has been achieved, make sure to thank him/her with phone call or visit.

5. Dealing with Corruption

1. How does corruption work?

Many times, a government officer will not accept or process your application, or simply delay working on it until s/he receives a bribe. Usually these requests are unspoken, or will have code words like 'chai pani' or 'kuchch de do' (give something). Sometimes, rather than taking bribes directly from the public, middlemen (dalaals) take 'service fees' from the public, a proportion of which they then pay as a bribe to the official to get the work done. Like everything else in a capitalist economy, there is a supply and demand, so the more desperate the demand for the service, the more the bribe is likely to be. Of course, there will not be any receipt issued for any such payments, making it hard to prove the bribery. If accused, the official will simply deny that he/she ever received anything. Such bribes can amount to huge amounts of money, such that many government officers have to pay huge bribes themselves, to be posted in jobs where the potential for bribe collection is large. Many people are desperate enough to get their work done, that they pay such fees and commissions. This is understandable, given the frustration of getting what you need without bribing.

2. What are the problems with the system?

- The more people pay bribes, the more it becomes entrenched in the system.
- Since the poor can't afford the bribes, corruption effectively excludes them from accessing the very services that were designed to benefit them. Hence, many widows aren't getting pensions, and many impoverished families don't have subsidised gas, simply because they can't afford the bribe!
- Some honest, hard-working government officers, are corrupted by this system.
- The bribes slow down systems that could, and should work much more efficiently.

3. What can we do when faced with a request for a bribe?

a) Before the interaction:

- Know your rights, applicable fees etc (perhaps using this Manual), so you can't be deceived.
- Where possible, lodge applications on-line, through a Common Service Centre (CSC) (here) or Jan Seva Kendra (JSK) (here) or by post, to avoid possible bribe requests.
- For written applications, use the format in Appendix 3 (page 80), so the officer knows you're serious
- Go with another person, so that there's a witness to any request for a bribe.

b) During the interaction, if an officer asks you for 'chai pani' or 'kuchch de do' then:-

- Ask him/her to show you where the fee is written down (to highlight its illegality).
- Say you'll happily pay the fee, if he gives you a receipt (also to highlight its illegality).
- Repeat his/her request loudly, so that others in the vicinity hear and s/he gets embarrassed.
- If he/she persists, make a show of noting the details of the interaction in a way that the officer knows you're noting it. Note the day, time, place & exact request. Note the officer's name and designation. If he refuses to give his name, then note down any feature that might identify him, like a name badge, which desk he's sitting at, or any physical features.

c) After the interaction, decide if this is an important enough issue to take further action on. If so:

- Type out concisely the details of what happened; date, place, time, officer, exact request etc; then
- Find the name of the bribe-taking officer's superior, (from others, websites, or this Manual); then
- Present your written complaint to the superior officer (or to any other complaint body listed in the 'Advocacy' section of each service in this Manual); then
- When making the complaint, get a 'received' stamp. Include a request that he notify you of what action s/he takes. Also include the threat that, if you don't hear anything within 2 weeks, you'll lodge an RTI to find out what happened. Then actually do whatever you threatened to do; then
- If still nothing happens, phone CBI anti-corruption number 9968 081216,7,8; then
- Use the Central Government's on-line grievance redressal mechanism (register here); then
- If still nothing happens, contact an NGO working in this field; then Go to the media.

6. Notes on effective use of the RTI (with example)

1. When is the RTI useful?

When you have an **individual problem** (eg pension application not processed) or a **community problem** (eg Anganwadi not functioning); and

- You've applied for the problem to be fixed (using the 'Application Procedure' in this Manual); and
- A reasonable period has expired; and
- Other Advocacy suggestions (in this Manual) haven't worked.

2. How to write an RTI

a) Necessary information

- The name of the department you applied to, the relevant Public Information Officer, and his address
- Date:
- Mention of "The Right to Information Act 2005";
- The information requested (see below, and example following);
- Fee Rs10 (remember to get the receipt) (for BPL Card holders, no fee, attach a copy of BPL card);
- Your signature (of the applicant);
- Your name; address; and telephone number.

b) In the body of your RTI, include these 5 points (see example below)

- i. State the date of your original application and attach a copy;
- ii. Ask the time that it should take to process an application according to the Right to Public Service Act or other rules;
- iii. Ask what action has been taken, by which officers (with names), on which dates, since you applied;
- iv. Ask what punishment has been or will be given to the officers responsible for the delay; and
- v. Ask when your application will be finalised.

3. To whom to lodge your RTI

- The RTI should be sent to the Public Information Officer (PIO) of the concerned government department. The relevant page in this manual gives links for PIOs.
- If it turns out NOT to be the correct government department, it's the PIO's responsibility to send the RTI to the correct place within 5 days (Sec. 6(3) of the RTI Act 2005 here).

4. How to lodge your the RTI?

On-Line: For Central Government Dept/Ministries, you can file/pay on-line at https://rtionline.gov.in/; or For Bihar state government deptiments you can apply on-line here.

By Speed/Registered Post: (so you have a record). For RTI fee, use Postal Order with Payee line blank; or **In person at the department**;
