Advocacy Works - Some real stories!

Kareen gets a widows Pension
Kareen moved to the city from her village as a young married woman. She, her husband and 4 children lived in a makeshift 'jhuggi' (hut) in an unauthorised colony in Delhi's north east. In 2008 Kareen's 11 month old baby girl died- probably to diarrhoea. A couple of months later Kareen lost her husband. This time it was probably to TB. Kareen (pictured right) was now left with 3 children, no income, living in a tiny hut and incredibly vulnerable.

The state government has a widows pension of Rs1,000 a month but Kareen wasn't getting it. Some simple enquiries and found that it was the Department of Social Welfare that administers pensions (see page 11 of this manual). The department said that Kareen wasn't eligible for a pension because she didn't have a bank account. Kareen had never had a bank account, so some community workers friends went to the local bank to find out about getting one. “No,” the manager informed them, “we need some identity documentation to open an account” (See page 48 of this manual). Kareen had no such documentation, so next stop was the Electoral Commission. The community workers asked the Commission to issue an Electoral Identity Card (I Card) for Kareen. After several days the officials visited her at her hut. They shook their heads and said; “No, sorry, because she lives in a slum hut, we won't give her an I card.” They protested & cited the rule that all Indian residents are eligible for I cards whether they live in a palace or a slum hut (see page 44 of this Manual). After a little more hand wringing, they finally agreed.

A week or so later, armed with the I Card, the community workers went back to the bank, which thankfully opened the account. Next they went back to Social Welfare Department, confident they'd succeed. “No!” came the answer. “Even with the Bank account, she still needs some official government document proving she's been resident in here for 5 years!” Exasperated, they wrote a letter of appeal to the head of the Social Welfare Department (see guidelines for letters on page 53), which finally acceded to their request. So after 6 months of doing battle with the bureaucracy, Kareen finally got her pension, back-paid for 5 months, so now she had Rs5,000 in her own bank account! She beamed ! It wasn't much, but the regular amount might be enough for Kareen and her children to survive.

Guddan gets a Gas Connection
Guddan had been trying for two years to get a 'pakka' (legal) gas connection. The staff at the gas office always gave some excuse for not being 'able' to give her the connection. Then Guddan attended an advocacy workshop during which she learned about her rights to a gas connection (page 33 of this manual) and ways to advocate should the application be stalled - especially on using the Right To Information Act. Having that teaching in my mind Guddan went back to the gas office. Again the officer gave some excuses, but this time Guddan threatened to complain to his superior officer in the state capital, if she didn't get her connection quickly. The officer was shocked. That simple threat of action was enough and Guddan got her gas connection within weeks!
A) Introduction

1. About this Manual

Mumbai has a surprising number of government services available to its residents. Many of those services should, by rights, be available to the poor residents of urban slums. Unfortunately however, many poor residents are not able to avail of these services due either to the corruption of some officials, or ignorance or lack of confidence in residents themselves.

Often when NGO's find these government services not functioning, they attempt to provide those services themselves, opening schools, clinics, vocational training programmes etc. Such service provision has the advantage that it may endear the NGO to people and may see results quite quickly. However, the NGO can't provide these services forever. Sooner or later they need to help residents to access these services which, in the long run, only the government can provide.

The information in this manual is only a part of a bigger strategy to empower Mumbai's poor residents. Empowerment involves not only giving the poor the knowledge of services available (pages 7-49 of this manual), but also the skills in writing & presenting applications (pages 53-54). Perhaps most important aspect to empowerment however, is the heart to want to act selflessly for the benefit of the whole community. The heart is a change this manual can NOT bring about. However, Appendix 1 on page 50 provides a comprehensive 10 step strategy to empowerment of residents with this knowledge, skills & heart. Be warned - it is costly and takes years!

For each of the services listed in the Table of Contents, we give:-

1. The relevant government department which delivers this service (with its website);
2. The entitlement/right to Mumbai residents as per that department's policy. We also give the 'Reference' website where those entitlements can be clearly seen. Many entitlements can be found at the Central Governments Citizens' website here, the Maharastra site here. Many entitlements are also listed in a "Citizens Charter" which many government departments now have on their websites here. Citizen Charter for the MCGM are here. A summary of services available, which is available to Above & Below Poverty Line residents and the scheme/legislation name is in Appendix 2 (page 52).
3. An application procedure to apply for that entitlement; Many application procedures & forms can be found here & here. Some hard copies of forms can be found in Section K on page 61. We give hints on writing effective applications & a sample application letter in Appendix 3 (page 53). We all know however, that for many reasons, the application may not initially succeed. The officer might:-
   • Be away on leave, on 'election duty' or claim that you've come to the wrong office;
   • Say he has no authority to deal with your application & the officer with authority is on leave or sick;
   • Claim that he has no 'budget' this year or that he doesn't have sufficient staff available; or
   • Ask for some 'chai pani' (bribe). Appendix 5 (page 55) has suggestions for dealing with corruption.)

Depending on the likelihood of these excuses, for each scheme, we give our rating of the chance of success & a suggested time frame. Appendix 4 (page 54) gives some useful tips for how to deal with government officers when presenting an application.
4. **Advocacy suggestions**, should that application not be successful initially; including (in order of difficulty):­

- Complaining once more to the original officer;
- Appealing under the Maharashtra Right to Service Ordinance [here] which guarantees the delivery of basic public services (like issuing caste & birth certificates, drinking water connections, ration cards) to citizens within a stipulated time frame and allows a fine per day for officials who don’t hold to that time-frame. (Right to Service portal [here])
- Using the Government's on-line grievance redressal mechanisms:-
  - For Central government departments see [http://pgportal.gov.in/](http://pgportal.gov.in/) (A Mobile App for this grievance redressal mechanism is available [here](http://pgportal.gov.in/) (scan bottom left). Should get a reply within 60 days (see FAQ #13 [here](http://pgportal.gov.in/)).
  - For Maharashtra state government grievances click [here](http://pgportal.gov.in/).
  - For Municipal Corporation of Greater Mumbai grievances click [here](http://pgportal.gov.in/).
- Lodging a Right To Information (RTI) Act application to the department where you applied. Notes on the effective use of the RTI with an example are given in Appendix 6 (page 56) to help you with this;
- Contacting a lawyer in Mumbai who may help you for free (see Appendix 7 page 58).
- Conducting a ‘dharna’ (protest) or
- Contacting the media. (Appendix 8 page 59 gives some tips on media.)

5. A **success story** (when available) showing where all this has actually worked in real Mumbai situations.

If you find this manual useful in your advocacy, as we hope you will, please feel free to share it with any other genuine NGO's/individuals who are working with the poor in Mumbai. It is deliberately not copyrighted. If you're reading this as a hard copy, you can find a soft copy in English or Hindi at EHA's website:- [http://www.eha-health.org](http://www.eha-health.org) under 'Resources/Advocacy Manuals' or at Justice Ventures’ website [http://www.justiceventures.org/](http://www.justiceventures.org/) under 'Get Informed/Justice Resources'.

We've also created similar Advocacy Manuals for many north Indians states including; Delhi, Uttarpradesh, West Bengal, MP, Jharkhand, Chhattisgarh, Bihar, Harayana, Uttarkhand, Assam, Maharashtra, Rajasthan & Odisha together with specialised manuals for Women's Rights and People With Disabilities all of which are available at the JVI or EHA websites for free. We'll attempt to revise these manuals every year so they stay up to date. We're also hoping to create Hindi versions of many of these manuals in 2016.

Finally, entitlements and grievance procedures are constantly changing so if you find any errors/ inaccuracies in this manual, or have any suggestions for additions, kindly write to us & we'll make the alterations.

- **At local government** Mumbai is governed by the Municipal Corporation of Greater Mumbai (see [here](#)). The Corporation council has 227 members known as ‘Corporators’.

- For administrative purposes, Mumbai is in the Konkan Division [here](#), one of 6 **Divisions** in Maharashtra. It is under the authority of a Divisional Commissioner (DC).

- Each division is further divided into several **Districts (Jilas)**. Mumbai has 2 districts Mumbai Suburban & Mumbai City. Each is overseen by a District Collector DC [here](#).
  - **Mumbai City** the DC is Ms Valsa R. Nair Singh, Mumbai City Collectorate, Old Custom House, Fort Mumbai -400001, E-mail: collector_MumbaiCity@maharashtra.gov.in, Tel (02382)243001.
  - **For Mumbai Suburban** it is Shri. S S Zende, IAS, Office of the Collector, Mumbai Suburban District, 10th Floor, Administrative Building, Bandra(E), Mumbai - 400 051, E-mail: collector_msd@maharashtra.gov.in , Phone : 91-22-22661231 / 22662440.

- To identify **other officers** such as Chief Medical Officers etc, the websites are given on the relevant page of this manual. As you find that information, insert it in the table.

E) Education

1. Education - Government Schools

The schooling system is one of the main ways that the gap between the rich and the poor continues to grow in India. The poor can generally only access government schools which are Hindi medium, overcrowded and under-resourced. The middle class can send their children to English-medium private schools, where the class sizes are smaller and teaching is better. From there, those students often go to college, whereas few government-school educated students do so. The measures below aim to improve the quality of education for the poor.

F) Slum Facilities

Some older slums in Mumbai are legally notified (recognised). The rights of slum dwellers residing on city-owned land in Mumbai arise from a 1995 addendum to the Maharashtra Slum Areas Act of 1971, by which the city government must extend basic amenities (e.g., water, sanitation) to slum residents who have proof of residency prior to January 1, 1995 (Ref here). This means it is vital for residents of slums more than 20 years old (which are or have a right to be 'notified', to have identity papers to show their residency. (See Identity documents on page 44). However, up to half of slum households in India and in Maharashtra are non-notified (Ref here). Non-notified slums suffer substantially poorer access than notified slums to latrines, piped water, electricity, and housing materials (Ref here).

5. Success Stories

Guddan had applied for her gas connection two years previously through Bharat Gas. They always made various excuses. Eventually Guddan lost hope that she would ever get a legal connection. After attending a training on this Manual she learnt about how to access the things to which she was entitled. Having that teaching in my mind, she went to the gas office agency again. When the officer gave her the same excuses as before, she told the officer that if she did not get her connection, then she will inform his head office in Lucknow. On hearing this, the officer was shocked and immediately promised her a gas connection. Guddan soon after did get her connection & book!

   * In the Damunagar slum in suburban Kandivali, which was destroyed by fire in Dec 2015 the government offered 25,000 per household (article [here](#)).
   * In February 2010, a fire broke out in KB that burnt down approximately 9% of homes in the slum. The government response to the fire shows how non-notified slum residents can be excluded from receiving meaningful compensation after a calamity. Since the central government does not have a policy of providing compensation to slum dwellers after disasters, the only monetary assistance that KB fire victims received was provided from the personal funds of local elected representatives. Every fire-affected family was supposed to be given 1000 rupees per individual, up to a maximum of 5000 rupees per household. (Reference [here](#)).
6. **Slum facilities - Demolition / Rehabilitation**

Residents of notified slums are entitled to compensation and or rebuilding should they be forcibly evicted from their slum. However, they are few rights for those living in an un-notified slum.

1. **Relevant Department**
   - Municipal Corporation of Greater Mumbai (see [here](#))

2. **Entitlement** *(Best Source: NCBI article [here](#) especially section h).*

   The rights of slum dwellers residing on city-owned land in Maharashtra are delineated in a 1995 addendum to the Maharashtra Slum Areas Act of 1971,(5) which states that the city government must extend basic amenities (e.g., water, sanitation) to slum residents who have proof of residency prior to January 1, 1995. Such residents are also entitled to security of tenure and rehabilitation in formal housing in the event of displacement from their homes.

   "...certain projects designated as having vital public importance have been allowed to use a more liberal cut-off date of January 1, 2000 for identifying families that should benefit from resettlement; however, each such cut-off date modification requires extensive legal proceedings in court by the Government of Maharashtra. ([Full article](#))."

   The Constitution of India places certain vicinities in Mumbai (including seaport, railway, airport, and defence areas) under the legislative jurisdiction of the central government, which means that Maharashtra state government regulations do not apply in these areas. The state government therefore cannot engage in any activities (e.g., extension of water and sanitation services to slums) on these lands without obtaining a document called a No Objection Certificate (NOC) from the respective central government agency responsible for that land. Central government agencies are hesitant to provide NOCs, as they fear that extension of services by the state government may bolster slum dwellers’ claims to land tenure. ([Ref here](#)).

G) Human Rights Abuse

1. Human Rights Abuse - Domestic Violence

While improving, the position of women in India is still very poor. Even in their own homes, many women are regularly beaten by their husbands. This behaviour is unacceptable in the eyes of society and the government. This is reflected in the new Domestic Violence Act of 2005.

3. Human Rights Abuse - Child Marriage

According to UNICEF, 47% of girls are married by 18 years of age, and 18% are married by 15 years of age. Far from the excitement of love and marriage portrayed in Bollywood, life for many girls married before 18 is awful, becoming little more than a household slave and having pressure to bear children when it is still unsafe. Girls 15-19 are twice as likely to die during pregnancy and childbirth than women in their twenties. In effect the girl bride’s childhood is cruelly cut short by be marriage. The law now prohibits girls to marry before 18 and boys before 21.

4. Human Rights Abuse – Trafficking

Many people, often children are given or sold by a family member, believing they will get work, study or marriage in the city. Often however, they are then denied the freedom to leave, mistreated & 70% end up in Bonded Labour (dealt with more on page 42) and 20% in Commercial Sex work/Prostitution (page 43). It is estimated that India has 14 million victims of trafficking.

The only way to stop trafficking is for ordinary people, like you and me to act. If you see anything you suspect as trafficking, even if a child is missing from your area, report it immediately to the police or Childline.

4.1 Trafficking – Bonded/Forced Labour

The Bonded Labour Act defines it as an “agreement” to provide ‘forced labour’. An ‘agreement’ is broadly defined and could be an agreement to get a payment, an advance; to fulfil a customary or social obligation; to repay relative’s debt; or simply by birth into a particular community. Labour is deemed ‘forced’ if there is; restricted freedom of; 1) employment; 2) movement; 3) sale goods and services in the marketplace or 4) payment is below minimum wage. 90% of bonded labourers are from the SC/ST community. Thus often children or family members are given to a powerful landowner to ‘pay off’ a debt, only for the work to never be properly accounted, exorbitant interest charged and the labourer never becomes free. This is modern day slavery.

5. Identity Documents - Bank Account

A bank account is vital to be able to access other schemes like Widow's Pension and other government payments (see page 11).

1. Relevant Department

**Government Banks**
- Grameen Banks (Website [here](#))
- SBI ([here](#)), Corporation Bank, Bank of India, Central Bank etc
- India Post (website [here](#))

**Private Banks**
- Corporation Bank, Punjab National Bank

**Local Post Office**

NB Generally the big Multinational private banks like HSBC, etc won't be bothered about accounts for the poor, so it's better to try everyday normal banks which have branches everywhere. We've had success with SBI and Corporation Bank.

**NB Easiest in terms of identity requirement seems to be Post Offices, although a Post Office account is no longer sufficient for having a pension paid. Grameen Banks are also easy to open and are sufficient for having a pension paid.**

2. Entitlement *(Reference: India Post (website [here](#)))*

- Bank Account for any person over 18 with sufficient documentation and an 'introducer'.

3. Application Procedure

- Apply for an Aadhaar Card (page 45) as that will entitle you to a bank account as well.
- For Postal Savings Account for which you basically need:
  i. Form SB3;
  ii. Pay in slip SB103;
  iii. Specimen, signature;
  iv. Introducer; &
  v. Rs 20 minimum deposit.

For other banks:-

i. Filled up Form (including signature of an 'introducer' who has already had an account in that branch for more than 6months);
ii. Address proof (Ration Card & I card with same address); and
iii. Rs 500 minimum deposit to open the account.

4. Advocacy *(if application doesn’t succeed)*

i. An appeal directly to the Bank Manager/Post office Manager; then

I) Appendices

1. Appendix - A 10 Step Empowerment Process

1. Build deep relationships with residents in the community
The key to any lasting change in a poor community is the residents themselves. Often however, after generations of poverty and being ignored by the powerful, residents are quite disempowered so much so that they passively accept their situations. Vitally important to a community being able to identify and solve its own problems then is for a small group of residents to develop the knowledge, skills and 'heart' (courage, self confidence and selflessness) to become change agents within their community. We believe the best way to help key residents to develop this knowledge, skills and 'heart' is by our own staff forming strong mutual, caring relationships with several key community members. Hence from the very beginning of the problem solving process our staff are looking to form good relationships with key residents. In choosing with whom to make the relationships, we deliberately look for key people with the right 'heart' who can potentially take the community forward in their development journey after our NGO's staff leave.

An added advantage to forming good relationships with residents is that we will tend to get the 'real' story on the community when we do our research on the community in Step 2.

2. Learn about the community - Observe & enquire
It's important to start the problem solving process by being learners ourselves rather than coming in as experts. One of the best ways to learn about the community is to simply walk around and observe ourselves the situation with respect to housing, power, sanitation, water, community relations, marginalised groups etc. Some things about the colony however, we can't observe, such as the history of the colony, what residents appreciate about their colony and what they perceive to be their priority problems. For these, more hidden aspects, we need to ask questions, especially of those with whom we are developing close & mutual relationships(from Step 1 above)

3. Analyse the problems yourself and with your colleagues
In order for our NGO's staff themselves to have a sense of the most pressing problems we, as a team, analyse what we've learnt from Step 2. This analysis may also reveal which problems affect most residents, which problems may create opposition etc, so revealing which problems will have the best chance of being resolved successfully. This analysis is not so as to impose those findings on the community, but rather to have thought about these issues before running the community meeting, to decide on which problem to tackle first (step 4). Part of this analysis can be a 'power analysis' to find which stakeholders have most power to bring a solution to a possible problem & whether those stakeholders are likely to be positively disposed to that solution or not.

4. Hold community meetings to prioritise the problems
While our NGO's team has done its own analysis in Step 3, it's vital for the final decision as to which problem is tackled first, to actually be taken by the residents themselves. This is done in a community meeting attended by representatives of as many groups of residents as possible; women, children, Muslims, Hindus, the disadvantaged and so on. This is one of the most difficult steps in the entire process, as running a successful community meeting with many different groups and different opinions is very difficult. The facilitator will attempt to hear all parties, quieten the loudest voices and ultimately build consensus among the residents as to which problem to tackle first.
5. Become an expert in the resources that could solve the problems
After the community has decided which problem to tackle first, our NGO team can use this Manual, its wider networks, internet research, RTI (Right To Information) applications and so forth to gather relevant information on resources available to the community that may be used to resolve the problem. These resources may be found in the government (in this Manual), among other NGOs, or indeed within the community itself. Again, this research is not done so as to impose those resources on the community, but rather to have options to put to the community in the next community meeting when developing a Plan of Action (Step 6).

6. Plan action to solve the problem
Another community meeting is held to make a plan of action to solve the priority problem decided in Step 4. The plan needs to specify who will do what, when it will be done and who will pay for any expenses. While our NGO's staff may be a part of the action plan, it's vital that our NGO's staff not take too much responsibility. If residents aren't willing to get involved, then it indicates a lack of commitment to the process and our NGO's staff need to wait until there is sufficient commitment before moving on. This planning phase may also be a good point at which to introduce God as a willing aid in the problem solving process. In the multi-faith context of India, most people will readily agree to call on God within their own tradition to help solve community problems.

7. Take the action agreed
Residents who have agreed to take steps in the Action Plan (from Step 6) then proceed to do so. Often these steps involve advocating with government officers to implement existing government services which should be available to residents. Usually this will involve using the Application Procedure outlined in this Manual.

8. Reflect on the action taken
If, after carrying out the plan of action, residents have succeeded in solving the problem, then it's important to celebrate the success! If we haven't succeeded, then we need to make a new plan probably using the Advocacy Steps outlined in this Manual and using our learnings from step 7.

Then cycle through steps 6-8 until the problem is solved or becomes unresolvable.

9. Do it all again with less involvement from the our NGO & more from the residents
After the resolution of the first problem we return to Step 4 and choose the next community problem to tackle. In doing so our NGO's staff take less responsibility, while encouraging residents to take more responsibility. In this way, gradually the residents, especially the 'good-hearted' people learn the whole problem solving process well enough that they can eventually do it without the help of our NGO's staff.

10. Form a CBO
The 'good hearted' people identified in Step 1 and mentored through the entire problem solving process, will eventually form an independent CBO (Community Based Organisation), that will carry on facilitating the community's development after our NGO's staff leave. That group may, after some time, wish to register as a formal Community Welfare Association, so as to give it more authority in dealing with the government as well as more accountability.

3. Appendix- Writing Effective Applications (with example)

In your letter of application be sure to include the following:-

1. A clear statement of your problem. For example you need a birth certificate for your child, but he/she is more than 1 year old so the local autorites won't do it easily.

2. The right you to this scheme and the relevant law (see 'Reference' next to Entitlement on the relevant page). For example under the Mumbai government Citizen Charter.

3. Your request that is specific and clear. What do you want by when? For example you want the birth certificate by 30 June 2016.

4. Next Steps: If you don't get this action what you will do. For example if you don't get the birth certificate by 30th June 2016, you'll lodge an RTI.

NB Copy your application to the state government office responsible for this scheme, so the local officer is more likely to respond to you.

Thus an example letter might look like this:-

The District Collector
Shri. S S Zende, IAS,
Mumbai Suburban District,
10th Floor, Admin Building, Bandra(E),
Mumbai-400 051,

12th May, 2016.

Re: Birth certificate

Dear sir,

I live in Ram Nagar colony in Mumbai Suburban District. My daughter was born there on 2nd Sept 2011. I didn't realise at the time that I should have a birth certificate for her. I respectfully state the following:-

1. The local municipal authorities will not issue a birth certificate for her because she is more than 1 year old.

2. I note from the Citizens Service Charter that I have a right to a birth certificate for my child.

3. I would therefore request a birth certificate for my daughter be issued by 30 June 2016.

4. If this is not done, I will lodge an application under the RTI Act 2005 to know what has happened with this application.

Kind regards,
Rani Kumar

4. Appendix - Tips on effectively lodging of applications

A. Preparation for the meeting
- Take someone from the community.
- Have the purpose of the visit clearly in mind.
- Get an appointment if possible.
- Dress formally.
- Take your I card & visiting cards if you have them.
- Have your diary, paper & pen.
- Take 2 copies of any letter or document you want to present.
- Take the originals of any copies you may need to give.
- Know where the office is.
- Have enough money for auto (if getting late).
- Get there on time.
- Know the rules & policies (including this officer’s superiors name) well before you go in.
- Decide what pressure you’re prepared to apply BEFORE you go in, if he/she is unreasonable.
- Decide who will speak.

B. During the meeting
- Introduce yourself and if appropriate check their name, designation and phone number.
- Clearly state your purpose for coming (may involve giving letter—if so get a ‘received’ stamp
- Stay calm! If there’s an argument or raised voices you will lose!
- Repeat whatever they say to you (whether negative or positive) (Often when the officer hears his unreasonable response repeating he softens it.)
- If you can’t get him/her to ‘receive’ your application, then at least fix any future date in your diary.
  Remember ‘later’ means never, so never accept later.
- Clearly state whatever follow up you intend to make.
- Thank him/her

C. Debrief the meeting
- If you went with someone from the community then debrief the meeting by asking: -
  “How was that meeting for you?”

D. Record the meeting
Write down:-
- Date of meeting
- Time of meeting
- Who you met with
- Result of the meeting (attach extra sheet if necessary)
- Any expense
- Attach the received copy of any letter given
Put any follow up on appropriate date in your diary.

E. Follow up on the meeting
- Do whatever you said to the officer you’d do.
- If it was a promise for some action of the officer’s side, check with him/her that it will happen as the date approaches.
- Once a positive result has been achieved, make sure to thank them with phone call.
5. Appendix - Dealing with Corruption

How does corruption work?
Many times a government officer will not accept or process your application or simply delay working on it until s/he receives a bribe. Usually these requests are unspoken or will have code words like 'chai pani' or 'kuchch de do' (give something). Sometimes, rather than taking bribes directly from the public, middlemen (dalals) take 'service fees' from the public to get some government work done, a proportion of which they then pay as a bribe to the official to get the work done. For example to get a birth certificate made for a child over a year old might cost Rs700. Like everything else in a capitalist economy, there is a supply and demand, so the more desperate the demand for the ration card or certificate, the more the bribe is likely to be. Of course there will not be any receipt issues for any such payments, making it hard to prove the bribery. If accused the official will simply deny that he/she ever received anything. Such bribes can amount to huge amounts of money, such that many government officers have to pay huge bribes themselves to be awarded posts in which the potential for bribe collection is large. Many people re desperate enough to get their work done - ration card or birth certificate made that they pay such fees and commissions. This is understandable given their often years of fruitless efforts. However there are many difficulties with such a system.

What are the problems with the system?

• The more people pay bribes the more it becomes entrenched in the system.
• Corruption effectively excludes the poor, who can't afford the bribes, from accessing the very services that were designed to benefit them. Hence many widows aren't getting pensions and many impoverished families don't have a BPL ration ration, simply because they can't afford the bribe!
• Otherwise honest, hard-working government officers, are corrupted by the system.
• The bribes slow down systems that could & should work much more efficiently.

What can we do when faced with a request for a bribe?

a) Before the interaction.
• Know your rights, applicable fees etc (perhaps using this Manual) so you can't be duped.
• Where possible, lodge application on the web or by post to avoid possible bribe requests.
• For written applications, use the format in Appendix 3 (page 53), so officer knows you're serious.
• Go with another person, so that there's a witness to any request for bribe.

b) During the interaction. If an officer asks you for 'chai pani' or 'kuch de do' then:-
• Ask him/her to show you where the fee is written down (to highlight its illegality).
• Say you'll happily pay the fee if he gives you a receipt (also to highlight its illegality).
• Repeat his/her request loudly, so that others in the vicinity hear and s/he gets embarrassed.
• If he/she persists, make a show of noting the details of the interaction in a way that the officer knows you're doing it. Note the day, time, place & exact request. Note the officer's name & designation. If s/he refuses to give this, then note down any feature that might identify him/her like a name badge, which desk s/he's sitting at or any physical features.

c) After the interaction. Decide whether this is an important enough issue to take further action over. If so:-
• Type out concisely the details of what happened; Date, place, time, officer, exact request etc.
• Find the name of the bribe taking officer's superior, (from others, websites or this Manual).
• Present your written complaint to the superior officer (or to any other complaint body listed in the 'Advocacy' section of each service in this Manual).
• When making the complaint, get a 'received' stamp. Include a request that s/he notify you if what action s/he takes. Also include the threat that if you don't hear anything within 2 weeks, you'll lodge an RTI to find out what happened. Then actually do whatever you threaten to do.
• If still nothing happens, phone CBI anti-corruption number 9968 081216,7,8.
• If still nothing happens, contact an NGO working in this field or go to the media (see Apx 7 pg 58).
6. Appendix - Notes on effective use of the RTI (with example)

1. When is the RTI useful?

a) Personal problems (eg Pension application not processed)
   - Once you've applied for some government benefit (using the 'Application Procedure' in this Manual); and
   - The normal period has expired; and
   - Reasonable enquiries haven't worked.

b) Community problems (eg Garbage not collected)
   - When a public service that should have been done hasn't been.

2. How to write an RTI

a) Necessary information
   - PIO's, Department and address;
   - Date;
   - Mention of “The Right to Information Act 2005”;
   - The information requested (see below and example following);
   - Fee Rs10 (remember to get the receipt) (for BPL R Card holders no Fee, attach a copy of R card);
   - Your signature (of the applicant);
   - Your name; address; and telephone number.

b) How to ask questions (see example below)
   i. State the date of your original application and attach a copy.
   ii. Ask the time that it should take to process an application according to their rules.
   iii. Ask what action has been taken by which officers (with name) on which dates since you applied.
   iv. Ask what punishment has been or will be given to the officers responsible for the delay.
   v. Ask when your application will be processed.

3. To Whom / Where to lodge your RTI

a) The RTI request should be sent to the Public Information Officer (PIO) of the concerned Government department. For lists of PIOs try:-
   - www.righttoinformation.org or
   - www.rti.gov.in

b) If that turns out NOT to be the correct government department, it's the PIO's responsibility to send the RTI to the correct department. The reply should still come w/i 30 days from the original RTI lodgement. If you're concerned you'll be troubled by the government department you're asking, you can post the RTI. Use registered or SpeedPost, so you have a record. For the RTI fee, use Postal Order with Payee line blank.

8. Appendix – Notes on the effective use of the Media

1. When is using the media useful in advocacy?
   x. In promoting an issue involving social change;
   xi. In creating public opinion/awareness and educating the public;
   xii. In influencing policy and decision makers/legislators;
   xiii. In publicising local/community/state level public action and other social issue events.

2. Developing the message to the media involves:
   xiv. Establishing the overall goal (eg. Advocating for a law, advertising an event, creating social awareness, etc.)
   xv. Planning the message and determining the target audience;
   xvi. Some key questions in determining the strategy:
      o What is the social concern to be highlighted?
      o Is there a determinable solution to it?
      o Which public/private body/authority can make the solution possible?
      o Determine the mode in which the attention of those who can make the solution possible can be gained?
   xvii. Designing the message to be – clear, concise, simple, powerful and compelling; It should target the intended audience.

3. Contacting the Media
   • Identify reporters who cover the issue you are addressing by asking around or reading the papers yourself;
   • Depending on the issue, contact local/national media – print and/or broadcast;
   • Create a media list with names and contact details (postal address/phone numbers/email addresses and fax) of reporters/channels/dailies/bureau chiefs;
   • Be cordial and create a good working relationship with the media.

4. Ways of using the media in advocacy
   • News release;
   • Letter to the editor;
   • Op-ed;
   • Media workshop (to sensitise the media on a particular social concern);
   • Personal/panel interviews;
   • Press conference.

Once the message is carried in the media, actual clippings (where it is in print) or copies of the broadcast interview, discussion, etc. may be taken, which can then be used in reference for further advocacy on the issue.

5. Sources for further information:
   Media Advocacy Manual, American Public Health Association (APHA)
   The APHA Media Advocacy Manual is a free online guide focused on using the media to advocate for social change. While the manual specifically focuses on public health, it is a good general guide to using the media in advocacy.
