EHA believes that God created the earth & we are its stewards, we strive to do our best to take care of it and use it wisely, conserving it for our future generations.

Our Work On Climate Changes & Disaster Risk Reduction

Inclusive organic & non-agricultural farming based initiatives to ensure food security & economic security.

Strengthening community based response and preparedness to hydro-meteorological hazards.

Promotion of sustainable energy in rural areas.

Promotion of inclusive water, sanitation & hygiene (WaSH).

Our Approach

1. Adopt an integrated and community based iterative approach.

2. Focus on encouraging good environmental practices to ensure that each project has a positive impact on the natural resources.

“We do not inherit the earth from our ancestors; we borrow it from our children.”
